Dear Carolina Christian Academy:

I want to take a minute and personally thank you for your dedication to the Chamber and for Carolina Christian Academy's support of the Chamber's Leadership Lancaster program now in its 26th year. Our stop at CCA on education day for our Leadership program is always a delightful and enlightening experience for the 25 community leaders of Lancaster, who see first-hand the warm, inviting campus and the amazingly talented students they meet at your school. Our group always leaves the CCA campus impressed with your passion and the passion of your staff with regards to education. It is obvious that every individual we meet at CCA is committed to providing students with not only the best education possible but the life-skills necessary for those students to be productive citizens.

I also value your commitment to the Chamber and your work with the business community as a Chamber member since 1996. I am proud to be able to share with business prospects and families considering locating to Lancaster County that we have great educational opportunities for their children and their employees' children. Often visiting families will ask about the public school system in Lancaster, which I believe is top-notch; but they also inquire about private schools in our area. Carolina Christian Academy is a true asset here in Lancaster and provides families the combination of a top-notch education delivered in a loving and supportive Christian environment. Not many communities can boast that a family can start their children in kindergarten and complete their four year degree at schools in their hometown that are rated as one of the best among their peer schools- CCA and our own University of South Carolina at Lancaster share those honors.

Lastly, as the Lancaster County Chamber of Commerce continues to expand our leadership development programs, please know I plan to call on you for continued support toward helping our respective organizations strive for a common goal of training future leaders and building a better community for children.

Sincerely,

Dean Faile, IOM
President/ CEO
Lancaster County Chamber of Commerce
