

We chose CCA because we wanted our child to be in a christian environment, taught by people with the same morals and beliefs as we teach him at home. We wanted to know that our child was safe and cared for just as he would be if he were with us. CCA has been amazing for us and our child. They always greet us with a smile and provide the most unbelievable loving care. We could not have asked for a better place to care for our son when we can't.

If you are considering CCA, I would strongly encourage it. We feel a sense of community and have very close relationships with the people caring for our child there. CCA will provide the absolute best care for yours as well. --- Tori Lynn Ford

As an educational provider, we wanted our child to be surrounded by loving teachers and leaders who individualize learning and care to students. CCA has met and exceeded all aspects of expectations from level of attentive care, to responsive feedback & knowledge of my child's behavior and needs.

"It isn't easy working full-time and sending my son to daycare, but having Cubby Care as the place he goes every day certainly sets my mind more at ease. A million times thanks!"

I have been telling all moms I know because I'm amazed more and more everyday with the great staff and my son's development! His social skills and interaction are developing amazingly, and I credit CCA for this. My son has been blessed with awesome teachers who understand him day in and out and continue to handle him with grace. My child has learned so much and continues to develop positively from the love he receives at Cubby Care.

---Keli Thomas

Best education you can introduce your child too.... It's like having one big family! -- Neal Bowers

Once we researched and visited CCA, we were excited that alongside quality education, the school focused on honor and respect of others. We were especially impressed that each time we entered a classroom, the children would stand. In a society lacking in respect, this is very important to us.

There are many at CCA that have gone "Above-and-Beyond" for our family. One of the things that we really appreciate at CCA is the availability of every staff member to answer questions and address any concerns we may have. The availability of additional tutoring and help class is one example of that at CCA. We would surely encourage other parents to seriously consider CCA for the education and preparation of your children.

--- Matt & Darlene Woodhouse

When our son started kindergarten, we were told by every teacher he had in the public-school system that he was too tough to teach. We came to CCA and asked for a chance. After evaluating him, it was determined that he was behind and it was suggested that he repeat second grade. Being grateful to find someone who would work with our son, we enrolled him at CCA. That was the best decision we have made.

He has been attending for five years now. We are always amazed at how much he has learned but also at how much he is loved. The staff and faculty at CCA are some of the most loving, caring, and Godly people we have ever met.

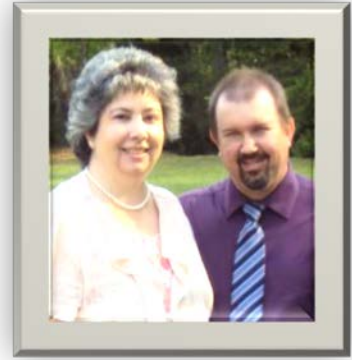

He has thrived in the structure and environment at CCA. The staff continues to find new ways to teach him to be a good student and use the gifts God has given him. We are so thankful to the people who heard God's call to open this Christian school. --- Bruce Young

We love CCA!!! Skylar started there when she was 4 and she loves it as well :) every year she will get upset when she must leave her teacher to go to the next grade but we always tell her she will have another GREAT teacher and she does!! We pray God will continue to bless us so that Skylar will be able to continue there. Thank you CCA for teaching our kids values and morals and more importantly teaching them to love and trust our God :) love to you all. – Cindy Jones

We chose Carolina Christian Academy for the Christian education and its atmosphere. We wanted our child's education to be more centered on our values and not what was/is being taught within the public-school system and curriculum. We have been pleased with the level and quality of Christian teaching that our daughter has received in the past ten years. Our aim from day one was for our child to graduate from Carolina Christian Academy. For parents who are considering CCA, we know this choice that we made so many years ago has been worth every sacrifice that we chose to make. As you know, anything in life worth having comes with sacrifice and commitment. We would gladly make the same choice again today.

- Rusty & Tammy Pittman

As parents, our most important goal is to educate our son Samuel in the Bible, Christian living, and the need to follow Christ. We do this at home, but why would we send our son to a public school where Christ is not talked about or the Bible even welcome? The choice to send him to CCA was an easy one.

This fall will mark Samuel's sixth year at CCA and we are extremely pleased. The teachers have been wonderful women of faith that balance Bible teaching and curriculum in a fantastic way. They have proven to be prayerful and very engaged in the progress of all their students.

Our questions have always been addressed and answered in a quick and satisfying manner. We feel the administration is open and easily accessible. We are very happy with the discipline and expectations placed on the students; they are shown how to be respectful of one another and adults. You really can feel God's presence at CCA.

To hear about God's miracles in paying off CCA's \$2M mortgage this year was awesome! We would strongly encourage any parent or guardian to send their child to CCA. They will receive a high quality Christian education at a very reasonable cost. Is there anything more important than sharing Christ with the next generation?

"And these words which I command thee this day shall be in thine heart and thou shalt teach them diligently unto thy children" Deut. 6:6-7a.

We will continue to pray for CCA each day!! --- Rob and Angie Wood

My child started out in public education and it just was not working. My husband and I started praying and searching for a school that was more suitable for our child and would incorporate Christian values. As we were seeking the Lord, a flyer from Carolina Christian Academy came to our house. After the tour, we decided that CCA was for us!

On the day we were to make our deposit, my husband lost his job but we decided that we were going to step out on faith and believe God would provide. Two months after starting at CCA, my son lost his dad. It was a very trying time. Having CCA by my side to assist me with child rearing has been so helpful.

CCA has time and time again exceeded my expectations. One of the things that stuck out early to me was when Dr. Mills mentioned how our school teaches the Bible. I was truly impressed with how vocal he was about the school's expectations and standards.

One of the many people that stand out at the school is Mrs. Hines. She has been one of the most influential teachers my child has had. She has been a teacher that has been helpful and encouraging and through her actions, I can tell she not only has a love for teaching but a love for children!

For parents that are looking for proper structure and boundaries, a genuine love for children and a love for the word of God, CCA is the place for them!!!

-- Angela McCauley

We are very thankful that our two grandsons, Gavin and Justin Eubanks, have the God-given opportunity and privilege to attend Carolina Christian Academy in Lancaster, SC. To be able to attend a school where the atmosphere and environment are both conducive, to not only learning, but also to growing Christian character, is really important in helping provide the proper foundation for the future. Whether it be in the classroom, during breakfast or lunch in the cafeteria, in Chapel, at sporting events or on field trips. . .the care for the students and the love of God is modeled by both the teachers and staff of CCA and as grandparents - that's important to know. Our grandsons are not just students...they're precious individuals that are loved and cared for at Carolina Christian Academy. We are grateful to God that they are able to attend this great school! The faculty and administrative staff are special blessings in our lives!

-- Gary and Debbie Underwood

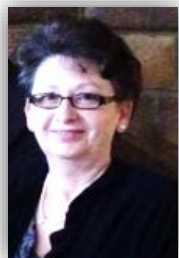

I have a child that does not thrive in a public-school setting. The strong structure, small classroom settings, and phenomenal teachers at CCA have created an environment that my child absolutely thrives in. He'll begin his 4th year as a 6th grader next month. I remember how scared I was the first time I talked to the administrators. They tested my child as he had just completed (and passed) 3rd grade in public school. He tested at a 1st Grade level!!! I waited for them to drop the ball and tell me they weren't equipped to handle children like him. Instead, the principal looked me straight in the eye and told me that he was God's creation and that they would never turn him away. Through prayer, they would do everything they could for him. Fast forward 3 years to now and his progress has been nothing short of miraculous. His Stanford test results were issued in May and indicate that he is on 8th level in several areas. In math, he scored on grade level...which means that he came up FIVE grade levels!!! He still struggles, and has to be pushed, but what an awesome peace that he has in knowing that his teachers, past and present, tutors, and school staff will never give up on him...just like his Creator. To believe in my child, and see him as God sees him is the best gift that CCA has given him. – **Name Withheld**

We've been enrolled at CCA since 2009. It's a wonderful school teaching the Bible and giving education to the students and putting Christ first. Thank you CCA! – Tina Broughton Brummett

We chose Carolina Christian Academy because we wanted an environment where our son is taught the same values we teach at home; and where he is challenged academically. The staff at CCA are dedicated to teaching and caring about the children and providing a place where children are safe, respected, and cared about. -- Robin Hucks
