

CCA IS LIKE TWO EDUCATIONS IN ONE!

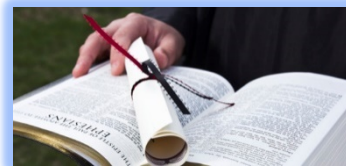

Carolina Christian Academy is unique! In addition to getting a strong college prep high school education, it is like getting what many have compared to a Bible institute education as well. Dr. Mills, CCA's founder, was a Bible college professor before entering K-12 Christian school education. He believes that high school students are smarter than they think they are, can learn more than they think they can, and will rise to the level of the expectation they encounter. Dr. Mills' goal is for high school students to get much of a Bible institute education while at CCA.

Below is some indication of what parents and students can expect while enrolled in CCA.
